New Water Pump for John Deere® - Part# NAR45332

News at Endurance

- NAR45332 John Deere® water pump
- John Deere® Late 10.1L engine kits from Reliance
- NAR43954 John Deere® vibration damper
- Turbocharger exhaust sleeves

We are proud to announce the addition of water pump part# NAR45332. This is a new water pump that is sold on an outright basis.

NAR45332

Replaces JD R45332

Cast# R26337, R27547, R34962,
R34977, R34982, R41315,
R41318, R44122

Tractors: 3010, 3020, 4010, 4020

Pump includes extra fittings, tube and plug to make our water pump as universal as possible.

John Deere® 10.1L Late Engine Kits

We now have in stock Reliance engine kits for the late 10.1 litre engine.

The 10.1L engine replaced the 6-619 in articulated, four-wheel farm tractors, forage harvesters, and some large construction equipment.

The early 10.1 engines are very similar to the late 6-619 engines, except for cylinder head components. The late 10.1L engine features changes in cylinder kit components, and gasket set components.

RP842 Major Overhaul kit
RP841 In-Frame kit
RP842 Underhaul kit

ESN 500,000 & up
Block# R116334, R116335
Rod# R63959
Piston# RE57949

New Vibration Damper NAR43954

4520 tractor with a/c 6-404T esn -> 280,000
4620 tractor 6-404A esn -> 335,845
4630 tractor 6-404A esn 335,846 ->
7020 tractor 6-404A all
JD740 skidder 6-404A esn 335,846 ->
5200 forage harvester.... 6-404A all
5440 forage harvester.... 6-404A all

It is strongly recommended that these vibration dampers be replaced every 3,000 hours and during engine overhaul.

Failure to replace worn or damaged vibration dampers may result in crankshaft breakage and related damage.

(Replaces JD R43954)
